NO APPLICATIONS YET

To start an application, please follow the instructions below.

1. Click 'Create New Application'.
2. Please have your MPRN, bank details and chosen registered company name ready before you begin the application process.

Address Details

Complete this form to submit an application.

We will ask the contractor you select on this form to upload the information and documents associated with your installation once your installation is complete.

Once they have uploaded this information, we will review it.

Please note that payment processing can take up to 6 weeks after all required information is received and accepted, with additional time if a pre-payment inspection is required.

Please provide the MPRN of the dwelling you are applying for *

Your Solar PV Grant Offer SPV [REDACTED] EGS: [REDACTED] Inbox x

 Solarpv <Solarpv@seai.ie>

to me ▾

15:03 (2 minutes ago)

Dear [REDACTED]

Well done on applying for a Solar PV grant with SEAI and for playing your part in driving Ireland's sustainable energy revolution for our planet.

We are pleased to confirm that your application for a Solar PV grant to the value of €1,800.00 has been approved.

What's next?

We will now provide necessary grant documents to North Cork Electrical LTD which they will fill out and return to us when your Solar PV installation is complete. Once they have returned those documents to us, you will be able to progress the progress of your grant payment request by logging into your online account [here](#). It is recommended that you have a contract in place with your chosen Solar PV Company.

What do I need to remember?

Your Solar PV installation and publication of the Building Energy Rating (BER) must be completed before.

Please keep all invoices, receipts, and documents provided to you by your chosen Solar PV installer in case your home is chosen for a Quality Assurance Inspection.

We can offer Solar PV grants for installations that are up to 4kWp in size. If you have applied for a grant that is less than 4kWp, but decide to install a larger Solar PV system, please contact us before installation to discuss you.

Please click the following link to confirm you have asked all the questions you need to know before starting works on your home - [Are you ready for your new solar panels? | Blog | SEAI](#).

Book your Building Energy Rating (BER) Assessment

BER assessors are in high demand. To avoid delaying grant payment, you can [click here](#) to organise your BER Assessment once you have a start date for your installation.

Need to change Solar PV company?

You can find another SEAI registered Solar PV company to complete your installation on the SEAI website [here](#). If you change company, please let us know before installation begins as this can only be done if the works have not started. Please note the change of a company will require cancellation of your existing grant and the creation of a new one. Where grant amounts have changed in the meantime, you will be eligible for the grant amount in effect at the time of creating a new application.

Need help or more information?

More information on this grant is available online [here](#) and you can read the full terms and conditions by clicking [here](#).

If you would like us to speak with someone other than you about this grant offer, please call us and give us consent to share data with them.

Thank you,

The Solar PV Team at SEAI
